

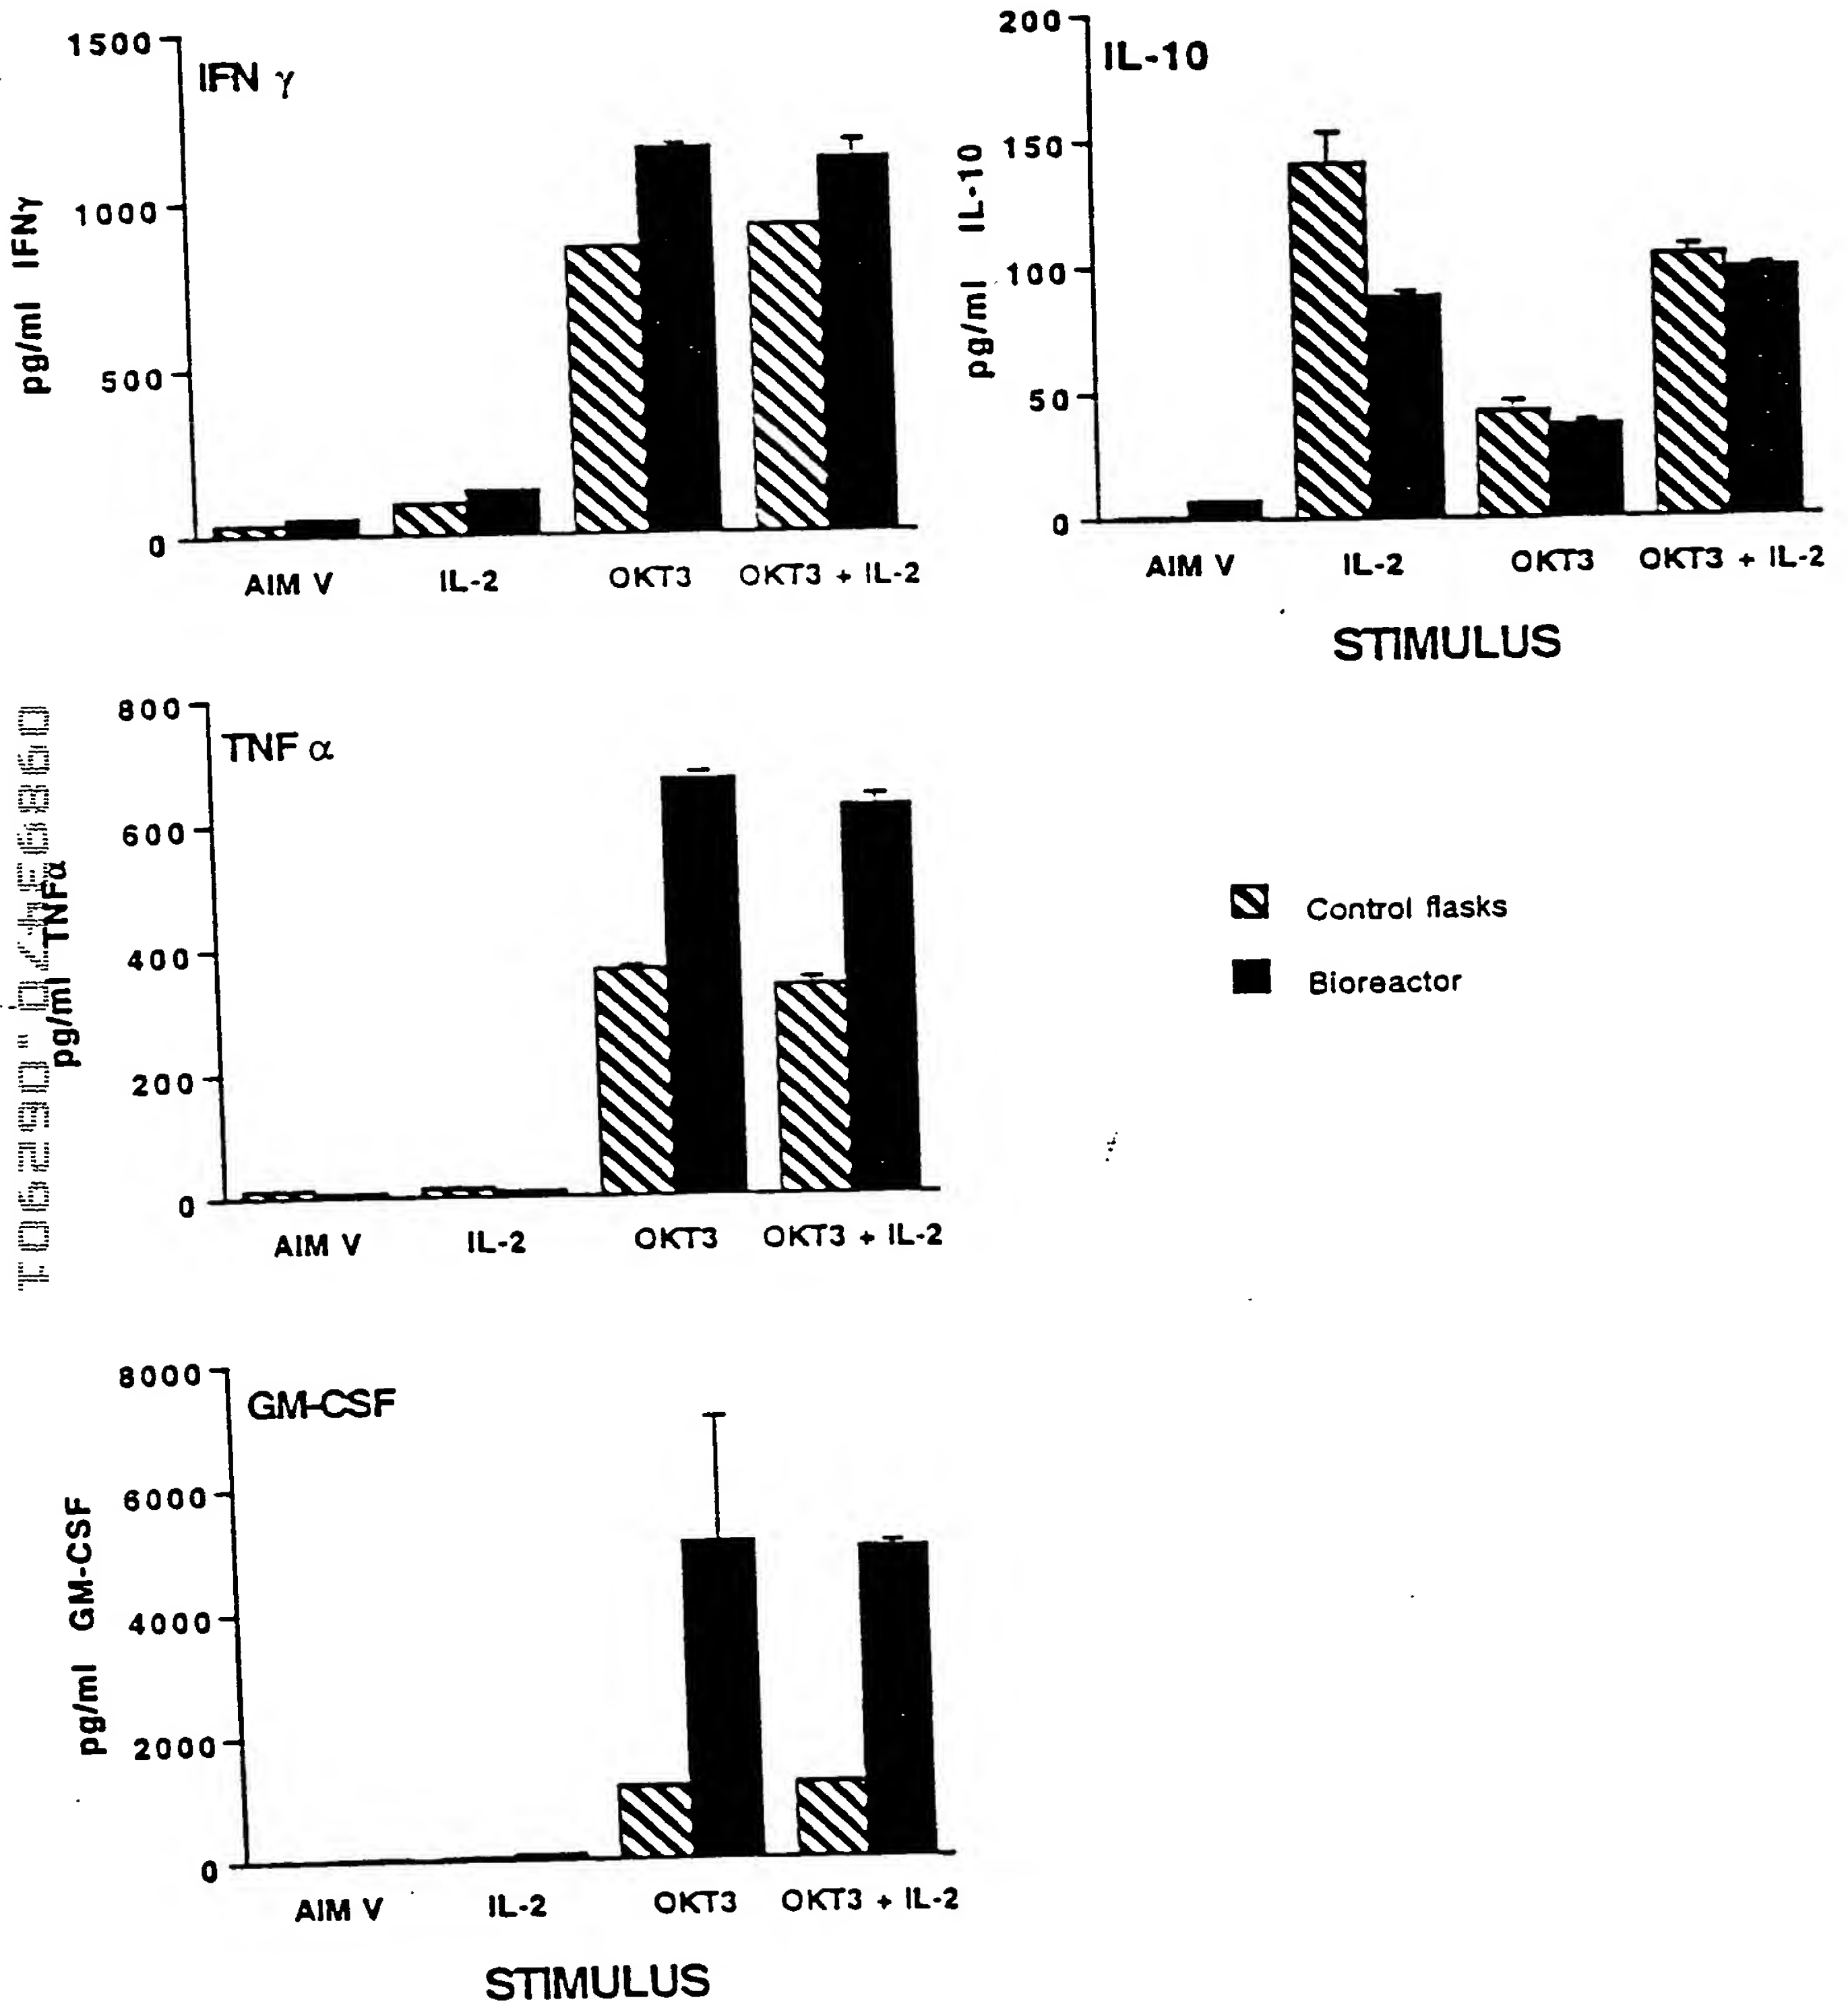

Fig. 1

Effect of Frequent Medium Exchange on Function of Dendritic Cells Derived at Low, Intermediate or High Inoculum Densities

L w in culum density

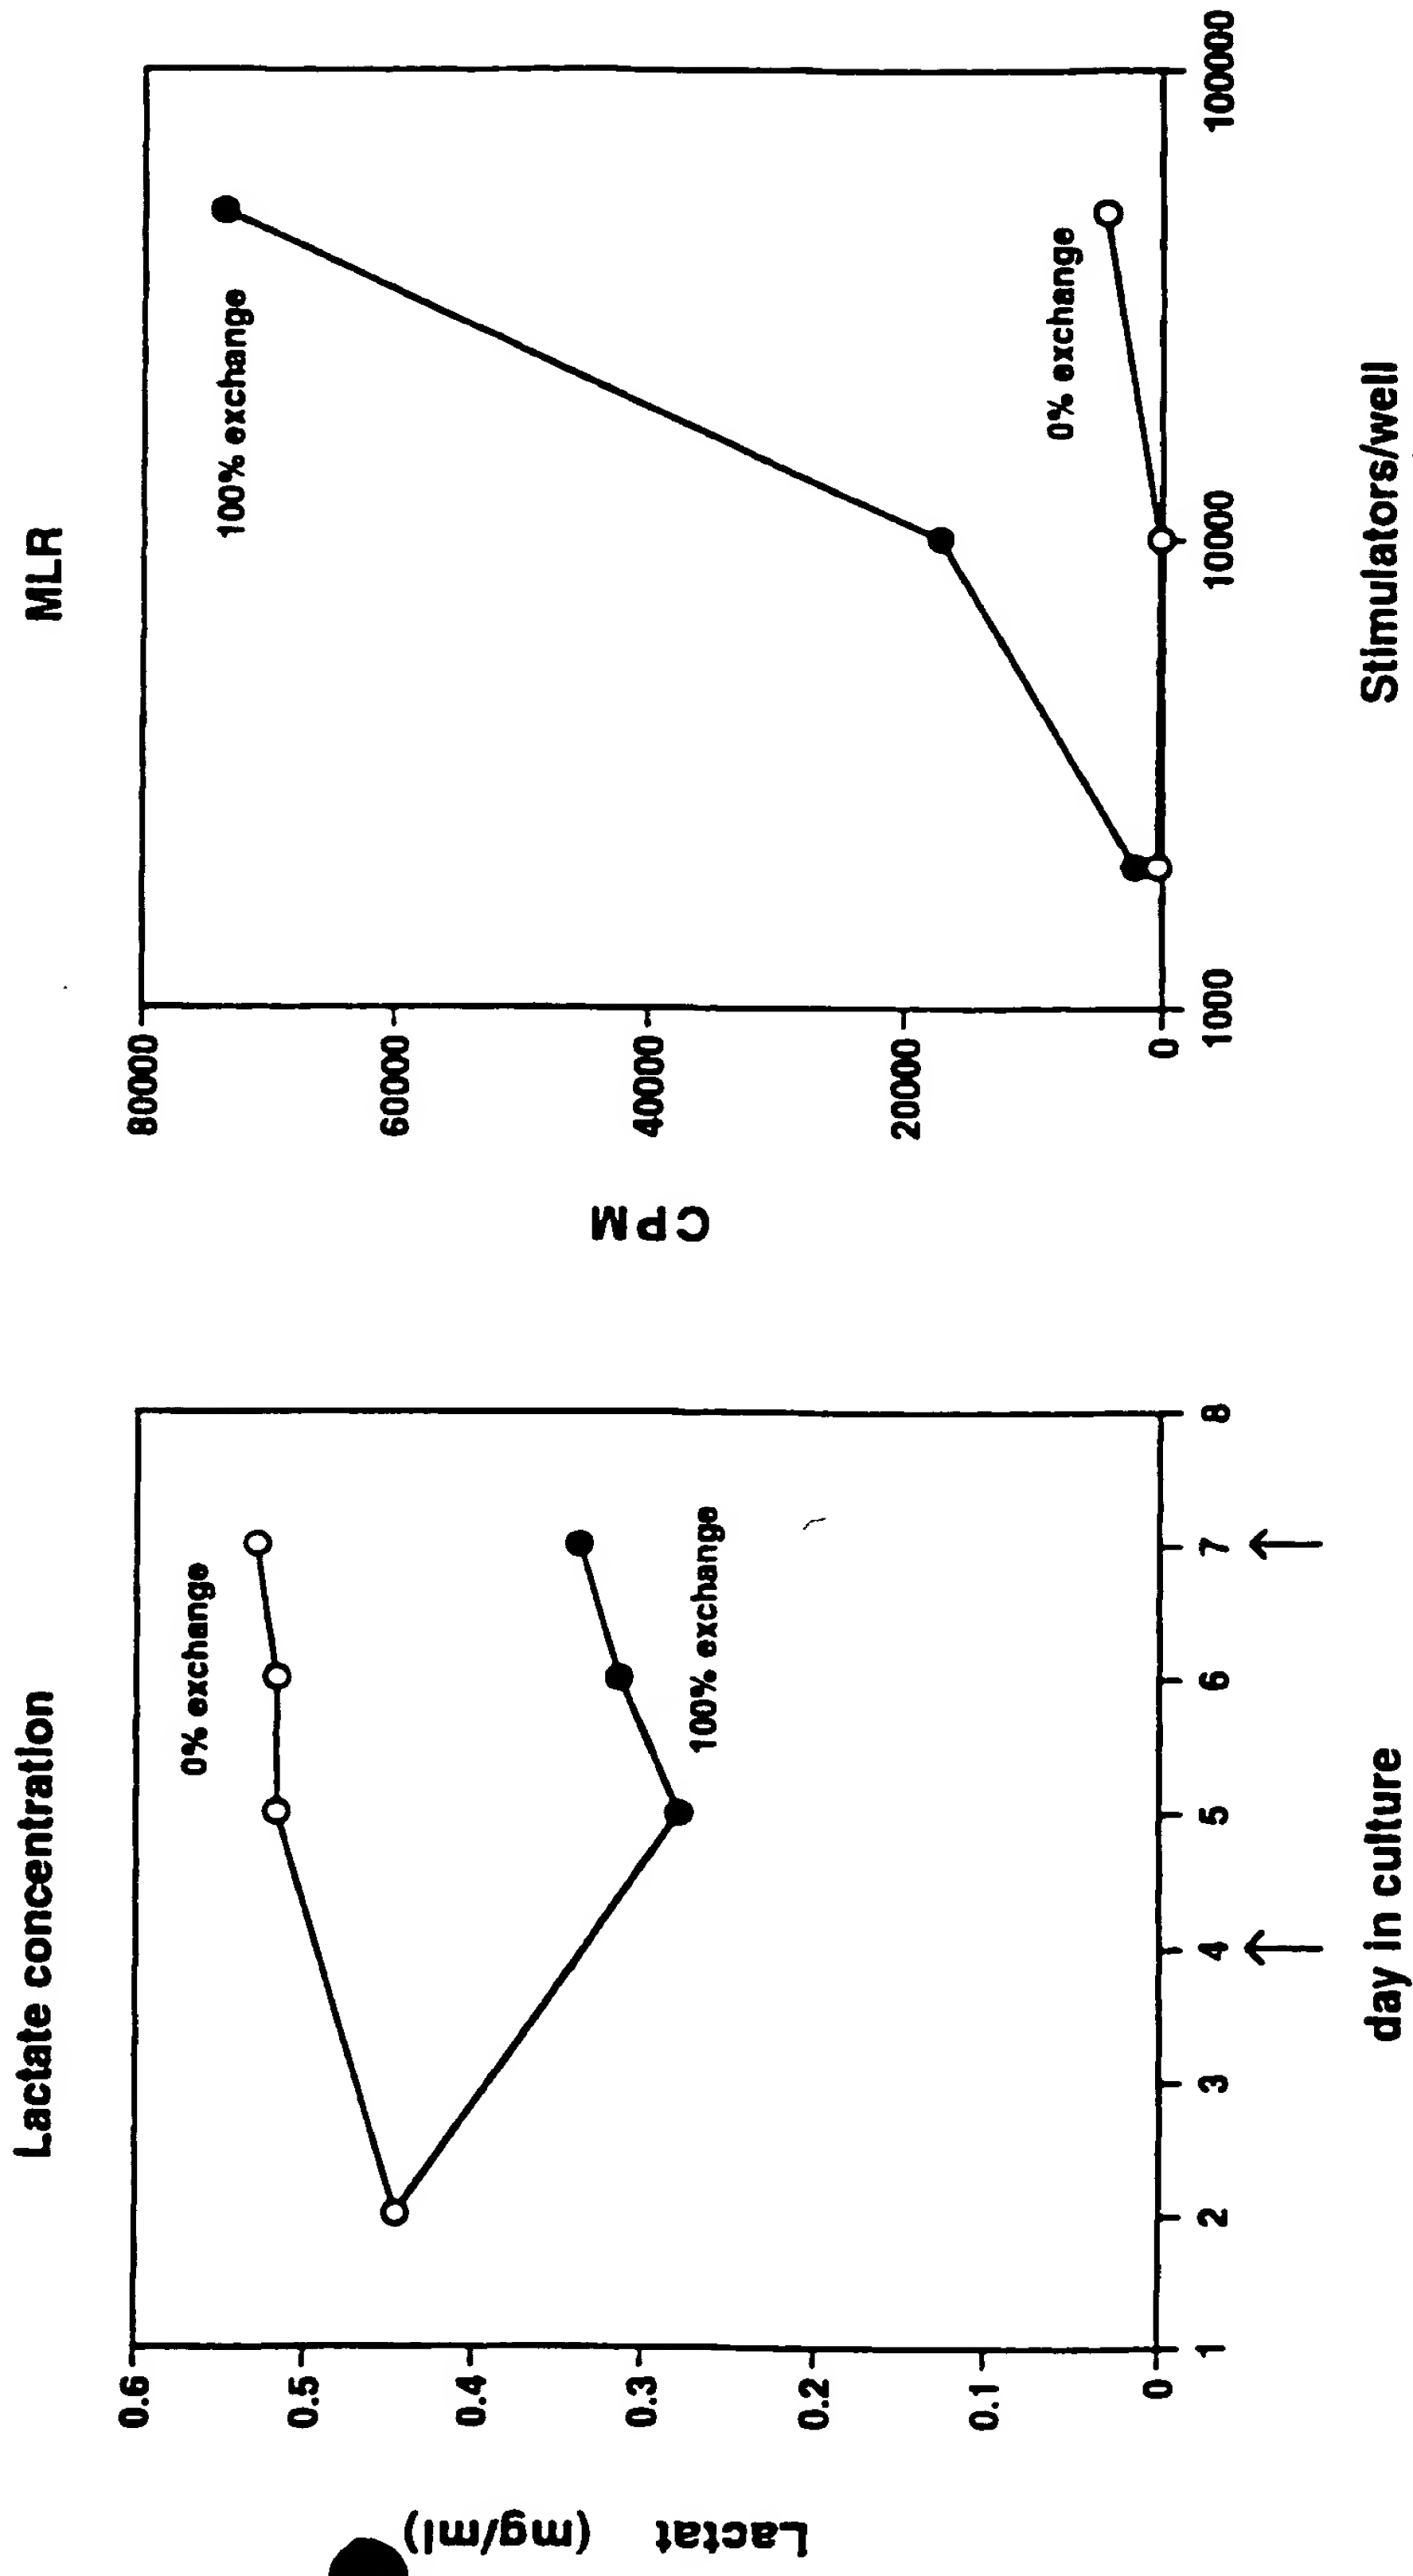

Fig. 2

Effect of frequent medium exchange on function of venous cells Divided at Low, Intermediate or High Inoculum Density

Intermediate in culum density

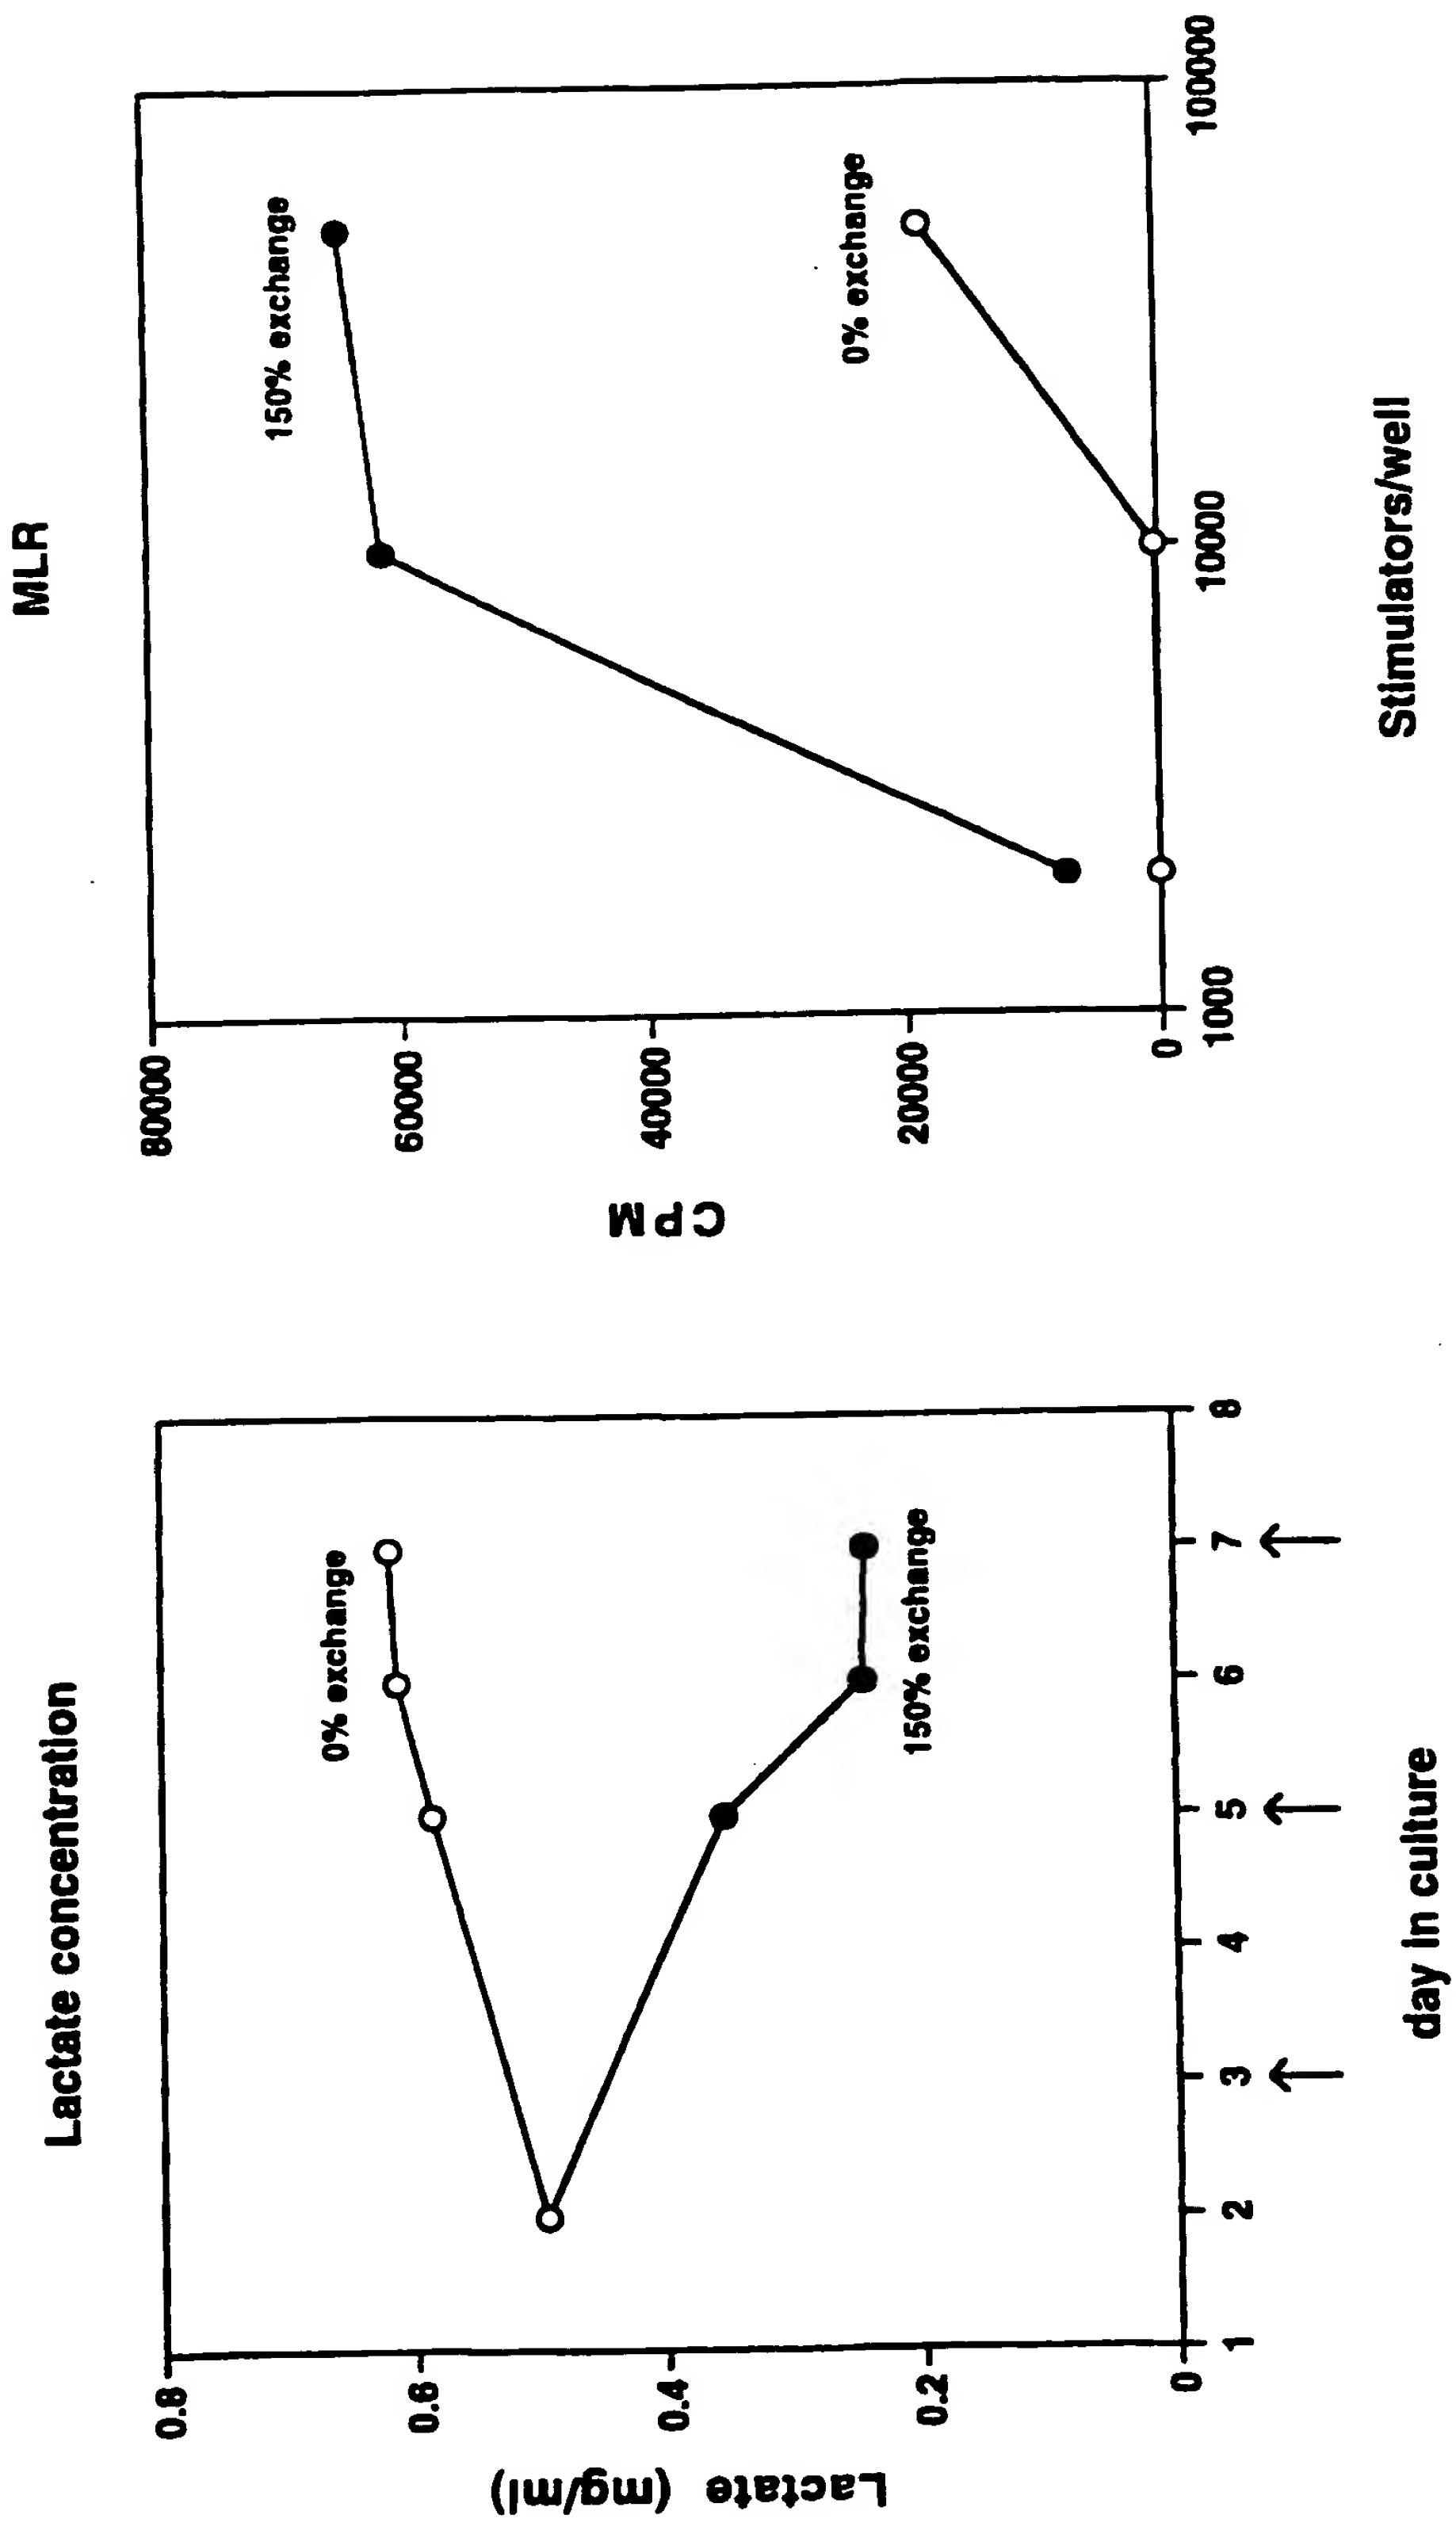

Fig. 3

Effect of frequent medium exchange on function of dendritic cells Divided at Low, Intermediate or High Inoculum Density

High inoculum density

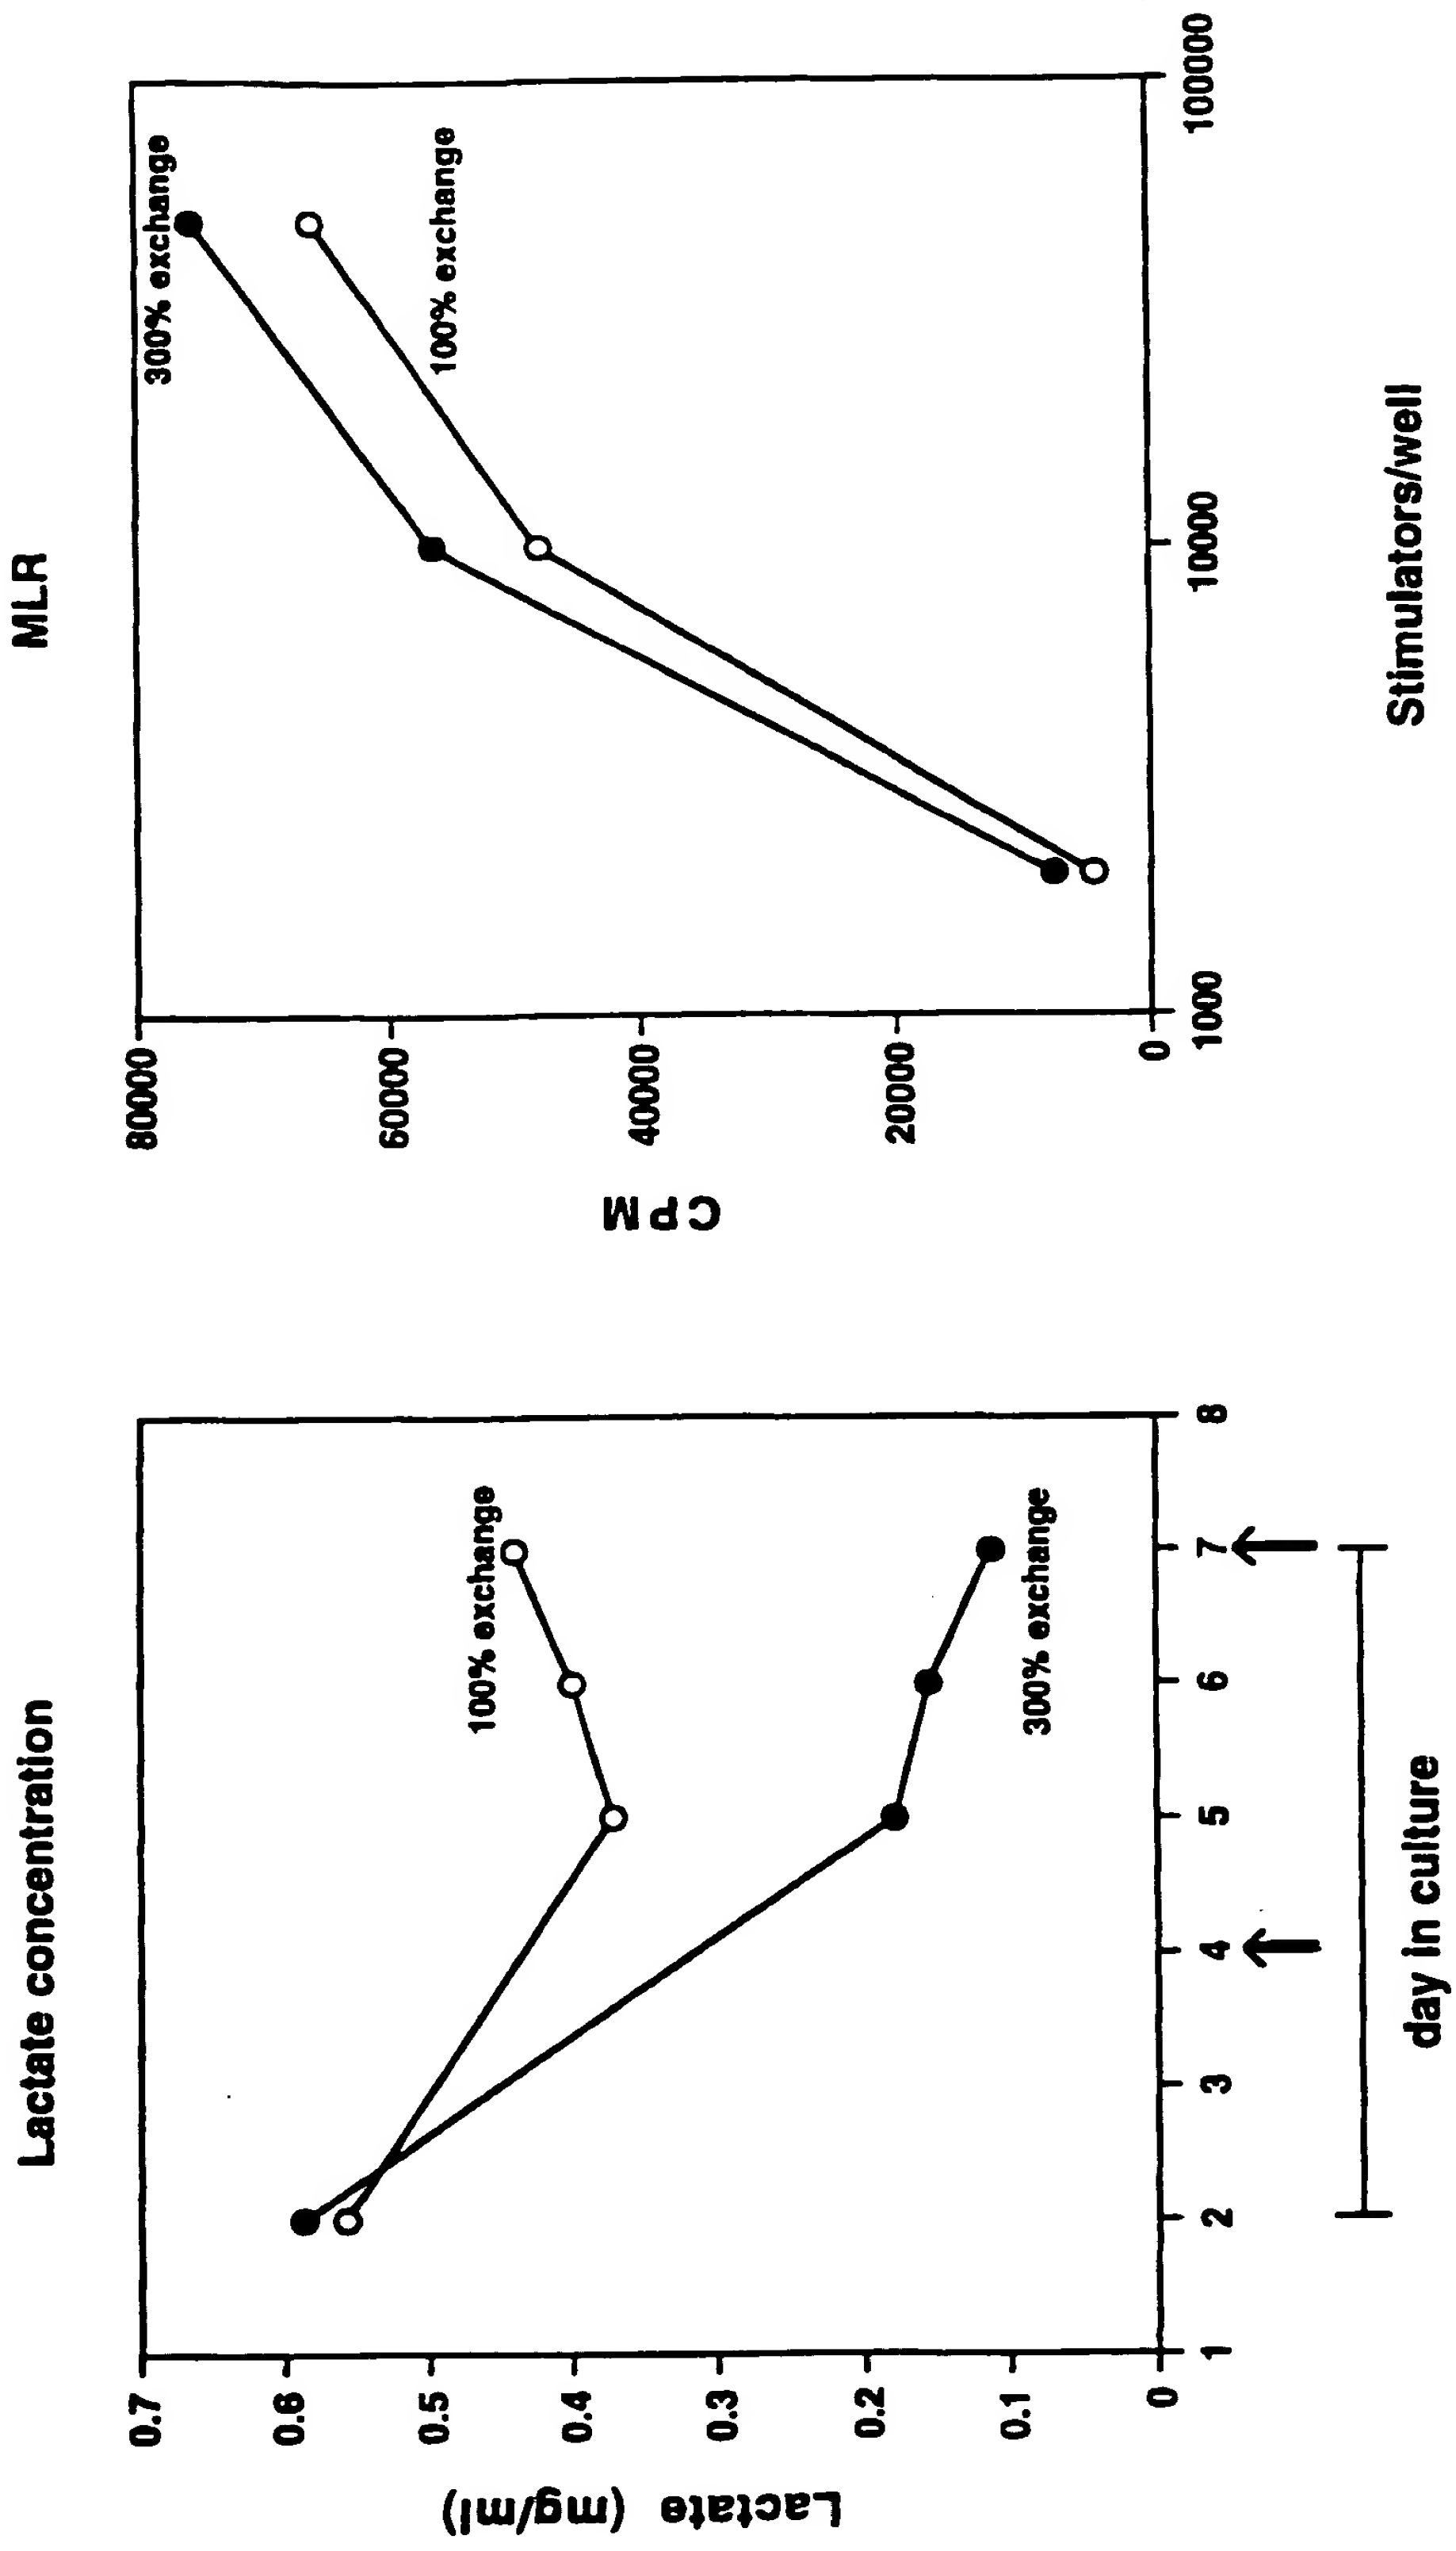

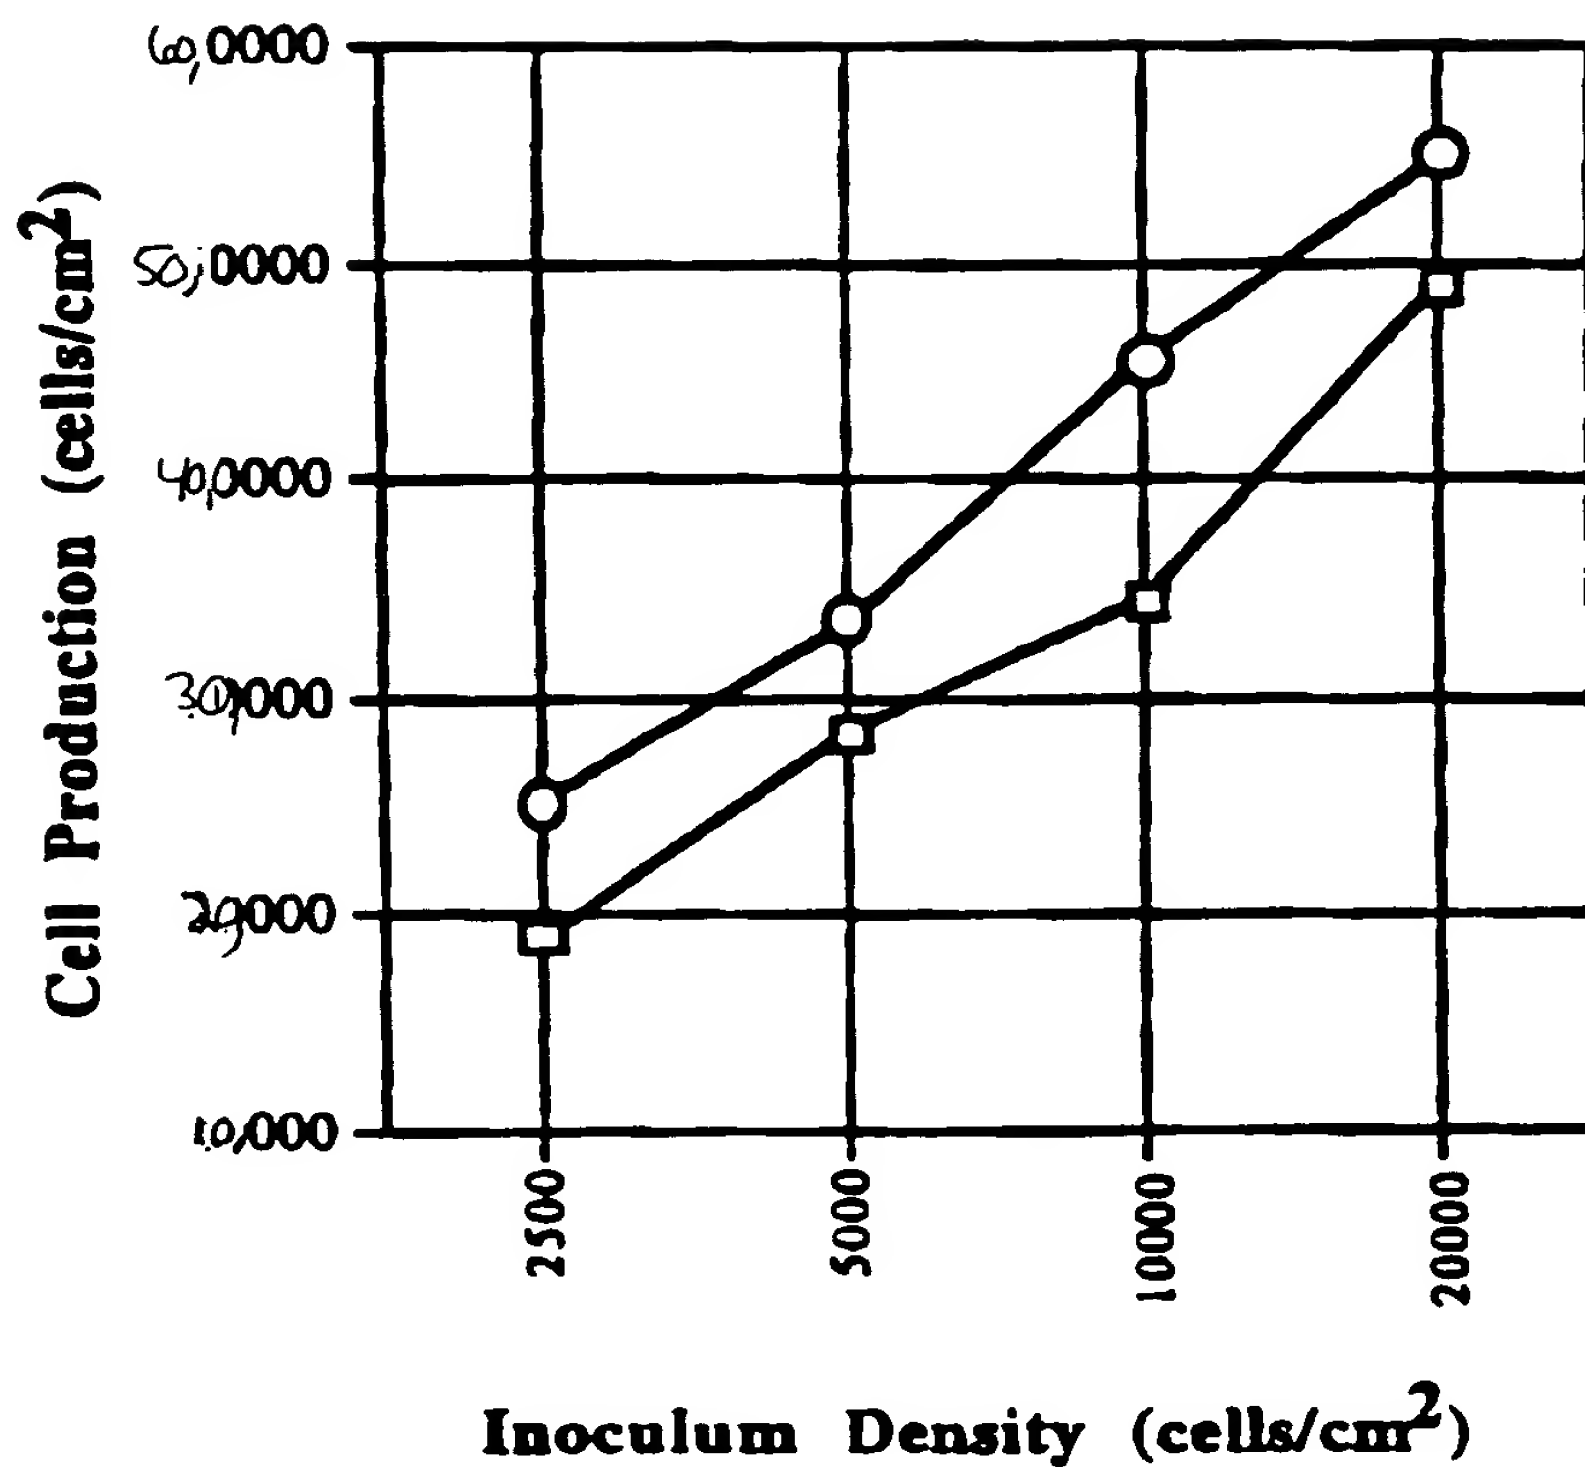

Fig. 4

Fig. 5

- Med. Exch. on days 3 and 6
- Med. Exch. on days 2, 4, and 6
